residual pathway with gate; leakage gap reported
Chest CT volume
Lobe segmentation masks, five lobes
Volumetric encoder features
Lobar pooling
lobar descriptors RUL, RML, RLL, LUL, LLL
Concept layer
23 concepts, non-negative weights
Findings
Training only: alignment penalty
Attribution outside the lobes recorded for a finding is penalised (lobe-level labels only)
Evidence per lobe (exact at lobe level)
Similar past cases (prototypes)
Concept contributions
Prediction set (conformal calibration)
